ENVIRONMENTAL PILLARS

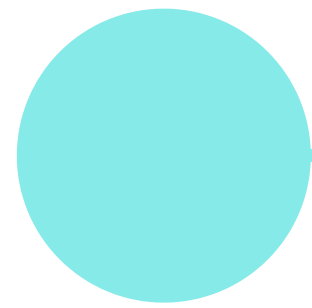

Let's dive a little bit deeper

SOME STATS...

Although we are not measuring ourselves only by numeric KPIs, here's a little glimpse of April - Dec 2021, since we got the keys in our hands till our winter break

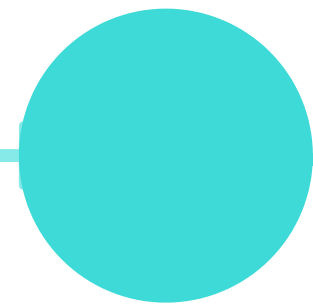

EXPENSES

We've predicted spending €317,600 for the "Seed" and "Pre:build" phases. This is what we've spent to square off those milestones

€330,739

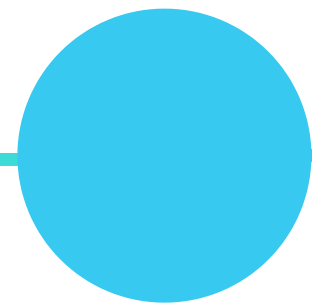

INCOME

We are ready to host events and guests since September. The income corresponds to 3 months of operation:

€10,688

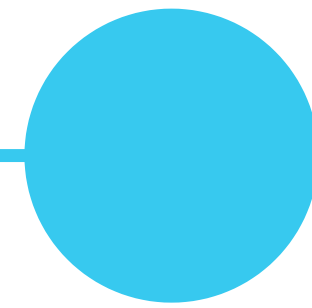

VISITORS

These 8 months were discovery months for the early adaptors. Either invited by us, referred to us or stumble upon our project, these dreamers found TDF

350

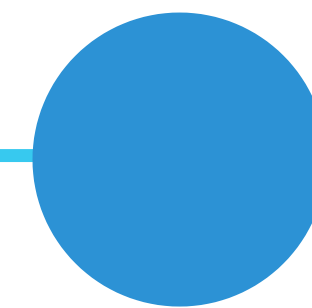

MEMBERS

To become a member, you need to spend at least 2 weeks at TDF and be vouched by the community. Although we haven't properly raised funds, we have a good amount of qualified members:

35

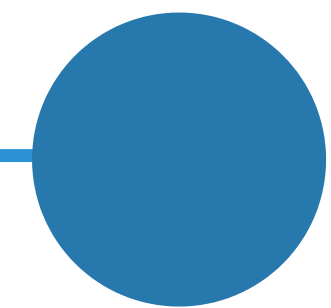

EVENTS

From one day events, to planting events and bigger aligned gatherings like re:build & Primal gathering we've hosted:

12

TREES

And last but not least, we have permanent residents in TDF lands from now until nature shall allow
